“Music Brings Us Together”

Over the years Bruce and company have performed here at home, throughout California, the USA, and the world. Tours have taken them to six continents that include China, Asia, Australia, Europe, North Africa, and to our Military Veterans here at home, Iraq, Kuwait, and American Embassy in Cairo Egypt.

Shanghai International Music Festival, and Festivals In California

Pictures below shows Bruce walking down stage stairs as he prepares to hand off his guitar to be able to walk through the audience at the Shanghai International Music Festival Blue Stage. The crowds ranging from four to ten thousand would dance and sing along with Bruce and the band as he went from section to section. This year's 7-day music festival in Century Park in Shanghai China had the highest attendance in its six year history bringing up to 55,000 daily.

Zhangjiajie International Music Week

At times Guynn sang in Chinese, but what may have really endeared Big Rain to the crowd is their rendition of 'Pung Yu ah Pung Yu', which means 'Oh Friend Oh Friend' in Chinese. The band became a favorite, and one of those Artists that kept bringing the people out day after day helping the Festival surpass previous attendance records.

If the idea of live music in the woods wets your whistle, the place to go is Zhangjiajie, in South China's Hunan Province whose biennial Zhangjiajie International Music Week, currently ongoing – has become a popular local event within just two years. The half-dozen rugged stages are set up among the lakes, trees and city's signature Tianmen Mountain but you won't have to move around – the bands tour among the stages, which can be a challenge in itself. Travelling by boat on Baofeng Lake, rope bridge, telpher and foot along rocky mountain paths with instruments, often with a bit of extra rain thrown in, means the event must mean something special for the performers.

“We've never thought of performing in such a great place with blue sky and green trees... seeing so many travelers stop and gather in front of our stage [is] the biggest reward on this trip,” Bruce Guynn, lead vocalist, and founder of Big Rain, told the Global Times. - Global Times - Daily circulation of 1,500,000 copies -An International Publication.

What Music Reviewers Have Saying!

Review – Indie Music Magazine - [IndieMusic.com](#)

Review by Barney Quick

Quote: "This is the kind of cleansing, welcoming music that makes listeners say, 'Oh, yeah! That stuff! I didn't realize how much I needed a big dose of that". California music's country aspect works best if it serves a basically optimistic, warm, human view of life, and Big Rain delivers that generously. Lyrical themes of family, friendship, integrity, and a desire to see an end-product of life beyond material gain infuse the songs on their latest, self-titled album on the Oak label. Bassist and lead vocalist Bruce Guynn writes most of the tunes. His affable voice is utterly devoid of affectation, like a neighbor hollering over the fence inviting you to join him on the porch for something cold to drink. His songwriting tends toward interesting combinations so that his creations are quite accessible but never formulaic. The album leads with arguably the most vibrant cut, "Sweet Inspiration," on which all these elements come together with superb sparkle. The Everly Brothers would be proud of this update of their sound.

Review by Christie Bohorfoush

As for this writer, I am hooked. Big Rain is the most refreshing band that has come along in quite some time. Indeed, the listener will hear old familiar sounds and everything from what will remind you of old 50's tunes to Latin inspired tunes to early rock sounds to soul. The question really is, "How did Big Rain manage to mix all of those influences into their sound, while still keeping a country edge?" Well, I cannot answer that question; but I can tell our readers that Big Rain brings a unique album of music that must be heard. While Nashville continues to crank out cookie cutter artists, this band brings the listener something new and refreshing; while keeping its roots grounded in the oh so familiar past. It is rare when a debut album does not have a bad track on it; simply a must hear for anyone who loves country music with an edge!

Review by J. Sin – Smother Magazine Writer - [Buy it from InSound-Get this on iTunes](#)

Arming themselves with a lush Nashville sound complete with big vocal harmony parts, Big Rain seem poised to turn that corner on the race to mainstream liquidity. Indie country artists can be a dime a dozen in some parts of the country but it's rare that such powerful songwriters and performers can all be found within the same group. As a trio, Big Rain almost seems to write and play at some high level as one super musician if you will. Their songs are compelling, breathtaking, and instantly gratifying. All the right ingredients for a stellar command of the country rock pop circuit.

Review by George Peden, CSO Staff Journalist

“The guys offer sharp and refined harmony and keen and tempered instrumentation. A bonus comes with Guynn’s songwriting; and as added confirmation to the caliber of the tunes, the band has already collared several envied placements on independent charts. They have also enjoyed scattered praise from music critics”. From the moment the laser centered on “Sweet Inspiration”, my curiosity enjoyed further reward. Not only is the hype right on the dollar, but it’s a scripted nod to the talent here. These guys—Bruce Guynn on lead vocals, bass and keyboards, Peter Alaimo, harmony, lead and rhythm guitars are a tight unit. In the musical mix adding to the harmony-driven trio is drummer Chet McCracken. He’s best remembered as the man behind the skins with the Doobie Brothers. Steel, fiddle, and mandolin enjoy perfect pitch and play by respective talents, Doug Livingston, Bobby Furgo and Richie Podolor. Lead vocalist Bruce Guynn has a steady and even-tempered pitch, commanding and confident; he works his lyrics into an enjoyable listen. The rich harmony offered by his band mates puts polish on tunes keenly crafted, well played and delivered, if not in a true country setting, then a soft rock alternative. Standout cuts: “Sweet Inspiration”, “December Night”, “I’m Breaking Out” and the James Chatterton-penned, “Las Vegas”

Review – Blazing Boots Magazine – BlazingBoots.com

This album is full of strong melodies, which in itself is unusual these days, with song after song that you can’t help but like. There isn’t a weak track on this album, and you can dance to most of them. If this band has a weakness I haven’t spotted it. They are a really sophisticated band with sophisticated lyrics sung to a sophisticated sound. Great albums love it all, wish I was clever enough to understand it all, but hey great music and great harmonies don’t really need to be understood do they.

What Radio Worldwide Are Saying!

“We are having a great run with “December Night”, and getting great listener response”.

Lynn Pierce, Program Director, KVLV Radio, Fallon, NV

“Now here’s a band that is on the verge of really breaking big time with their second single, (Sweet Inspiration). What a great song.” **Independent Music Network, CA**

“Bruce Guynn, Big Rain’s first single I’m Not Running is a great song and getting a lot of really good listener call in responses”. **Lee Richey-WCJW Radio- Warsaw, NY**

“I think the song “December Night” by Bruce Guynn is a perfect song. I can’t find anything wrong with it.”- **Stan Edwards, The Bear, AZ**

“Great music and great voice.” **Paul Johansen - Radio Sotra – Norway**

“I would be very honored if I could include the very great music you perform in my radio show. I have gotten the CD and Big Rain’s first track from the full length album is what I use at the moment. It’s a really great album and there are many tracks that I like a whole lot. With nearly 25 years as DJ I’m real serious when I say that your stuff is Great. Easy to take in and good radio format. Keep up the good work. Greetings from the "Snowland", **Lars G. Lindberg - Radio Siljan – Sweden**

Bruce Guynn & Big Rain CD "The Big Rain Café"

This is a great sounding band. My favorite tracks are Angel in My Room and I'm Breaking Out.

Thanks, **James Pearson, BBC RADIO SHETLAND**

An adventurous and innovative approach to **Rock Country Rock Music** is also the way of Big Rain. I must say I was knocked out by "Big Rain" (Oak/Comstock) and the program of eleven songs, mostly penned by lead vocalist and bassist Bruce Guynn, simply because this is what country rock is all about. There are influences in there that cannot be disputed, but also beyond dispute is the fact that Big Rain is totally original. "Sweet Inspiration", the opener, has a kind of countrified Merseybeat sound it (amazing!) and you will find echoes of the Mavericks (without the horns) and you will also discover some really beautiful songs; "Angel In My Room", "December Night" and "Waiting". An added bonus is the inclusion of Doug Livingston, Bobby Furgo and Richie Podolor picking steel, fiddle and mandolin respectively.- **Pete Smith's Reviews, FAB-AM Radio, England, well known programmer reviewer. His reviews appear regularly on the European PlayList Board.**

They just sound great. We have had a lot of bands hear but this is really different: Really good tunes. Now you know how good they are so get out and see them". **John Sandige, KPIG Radio, Central Coast Radio, CA**

"The last time these rain-dogs played Moe's Alley I witnessed an audience going wild for them. You will not hear another band quite like Big Rain". **Good Times Santa Cruz News Paper**

"Big Rain is a band that inspires the kind of free – form dancing that seems to come naturally to many Santa Cruzans. This band will always have a built-in audience". **Good Times Santa Cruz News Paper**

"Developed over the years, Bruce Guynn & Big Rain's sound is making fans all over the world".

Santa Cruz Sentinel Newspaper

"Dance, dance, dance until you can't dance anymore. This is music for the soul. When sampling Big Rain's recordings your feet will begin to tap and your head will start to bob". **Monterey County Weekly News Paper**

"Big Rain's sound is soulful, spontaneous and guaranteed to make you move". **Carmel Pine Cone Newspaper**

Music Brings Us Together

After writing, and releasing six albums with more on the way it is gratifying that the music has added value to people's lives. Though it is not really as important as creating something that actually helps people, I feel blessed that three songs have made it to number one, and that seven songs have gone into the top ten, and top thirty in the USA, and International Radio Music Charts, and Internet platforms.

Ever since that first Billie Holiday record I heard when I was a child music has helped me, and guided me through life. But, I continue to discover a deeper understanding of the power of music everyday from friends, fans, and people in our ever changing industry. All of you have helped me accomplish many goals, and helped me to live my childhood dreams.

Thank you for your time and interest. I would enjoy the opportunity to work with you.

Sincerely,

Bruce Guynn
